Planets continue to move through the heavens, connecting with different parts of our Self, impacting events and our reactions to situations.

Mercury takes 21 -22 days to go through each sign. However, Mercury never gets more than 18 degrees ahead of the Sun. Mercury turns retrograde at that point and returns back to join the Sun. This is why Mercury turns retrograde three times a year as our mental faculties need to be connected to our purpose (Sun).

Usually Mercury retrogrades in similar elements each year, such as fire, air, earth or water, coded below.

When Mercury retrogrades the impact to each of us is according to the house which rules the environment and arenas that we experience life's events.

Ar - ruling Aries is the place our Self begins. Find the house that has **Ar** and the order should continue through the zodiac. If you have signs missing, they are considered "intercepted" signs and if you have two signs, they are considered "duplicated". This means that the "missing" signs were not valued and must work extra hard to bring them into your Self expression. The location shows the area that needs to expand.

There are 30 ° degrees in each sign, so to determine where each mercury retrograde will impact you, look to the degrees and signs impacted. Example, Mercury retrograde from 23° Gemini back to 8° Gemini, would impact the 7th house, but then would move back into the 6th house

Signs and House Cusps: **30° in each sign**

Aries	Leo	Sagittarius	FIRE
Taurus	Virgo	Capricorn	EARTH
Gemini	Libra	Aquarius	AIR
Cancer	Scorpio	Pisces	WATER

Arrows indicate the zodiac cycle: Aries → Leo → Sagittarius → Aries, and Cancer → Scorpio → Capricorn → Cancer.
